INTRODUCTION.

We have the pleasure to hand you herewith our Catalogue of Drugs and Druggists' Articles for 1890–91 carefully revised to date.

We beg permission to take advantage of this opportunity to present briefly the following facts upon which we rely for the extension of our business as well as for the retention of the large trade we now have.

1. *Our stock of* Drugs, Chemicals, and Essential Oils *is carefully selected, and will compare with that of any house in the country.*

2. *In* Proprietary Medicines *we can compete successfully with houses making them a specialty.*

3. *We have the largest and finest stock of* Fancy Goods and Druggists' Sundries *in New England, and invite competition with establishments doing an exclusive fancy goods business.*

4. *Our stock of* Wines and Liquors *is selected with a view to supplying the wants of druggists, and in extent and variety is fully equal to the demands of the trade.*

5. *As a whole, our stock is larger, better assorted, and more complete than any other in New England, and our facilities for the reception and despatch of orders unsurpassed.*

6. *We invite the most critical examination of every article sent out by us, and cheerfully submit to comparison with other houses.*

If we have not had the pleasure of doing business with you, in order to test the soundness of our claims, we respectfully request you to make us the depot for your supplies for one, two, or more months, stipulating that you include all departments as fully as possible, the business relations thus established to be *terminated at your pleasure,* with our assurance here given that all purchases made to said termination (in the event of your desiring to close business relations with us) *shall be adjusted to your entire satisfaction.*

Our object in asking a concentration of your business in our hands is self-evident; the more we have, the better we can serve you. We request your business for a month or more, because less time will not enable you to fully test the resources of our establishment.

We eschew all combinations on prices, we torture none with travellers, we guarantee the quality of every article sent out, careful attention to details, prompt shipment, and the lowest prices current in this market. We are willing to do faithful work for small profits and prompt monthly settlements.

We feel assured that most druggists will concentrate their trade where such opportunities are offered, and in the hope that you may be induced to make trial of the facilities enjoyed by our house for the satisfactory transaction of your business, we cordially solicit your orders.

We wish also to call your attention to the advertisements contained herein, believing that a perusal of our advertising pages will result to your advantage.

We are prepared to execute export orders for any goods in our line, and

respectfully solicit correspondence from foreign dealers. Our line of drugs is complete and unsurpassed in quality, and we offer same at lowest export prices. Export orders for patented medicines will be filled at lowest prices, and where special bargains are available, our customers may rest assured that they will receive the benefit of them.

Soliciting for our Catalogue a kind reception,

We remain very truly yours,

WEEKS & POTTER.

BOSTON, December, 1890.

CLASSIFICATION.

No method of classifying Drugs and Druggists' Articles has been found in practice so satisfactory as the alphabetical substantive, which places Oxalic Acid among the acids, and Iodoform under I, in the order in which the combination of its letters permits it to appear. While there are many exceptions to this rule, it is sufficiently accurate to permit the finding of any article by a brief examination of the book. Still further simplicity is given it by a division of its contents into five heads, viz: 1. Drugs, Chemicals, and Pharmaceutical Preparations. 2. Wines and Liquors. 3. Proprietary Medicines. 4. Glassware. 5. Fancy Goods and Toilet Articles, and General Sundries.

NOTES OF INTEREST.

Our terms are cash in thirty days.

On export orders, special terms will be made as circumstances require.

We beg to call the attention of physicians and druggists to the products of our laboratory. We manufacture a complete line of fluid extracts, elixirs, etc., etc., and guarantee them absolutely pure and standard in strength. The wonderful increase in the sales of products bearing our label, without the aid of a single commercial traveller, is, in itself, a proof of their virtue. Our laboratory is conducted under our personal supervision, and all work is done by experienced pharmacists. We extend an invitation to our customers to visit same at their convenience, and it will give us pleasure to explain our methods and answer any questions which may be asked. Our prices for these goods are as low as it is possible to make them, and we solicit comparison in prices and quality with the products of other manufacturers. We will gladly submit samples on application.

When you instruct other dealers to send us packages for shipment with goods ordered from us, please note the fact on your order, and state distinctly if we are to delay shipment of our goods until such packages are received. We take no responsibility of breakage, loss, or damage on such packages.

When empty bottles, cans, kegs, or other "empties" are sent to us to be used in filling orders, or for credit, please see that your name is plainly marked on them.

Claims for errors on our part, in prices or on shipments, should be made within five days from receipt of goods. We earnestly desire to correct all errors, but cannot promise to do so if complaints are not promptly made.

We do not receive any goods back for credit unless same were sent through some error on our part. The acceptance by us of returned goods is a favor granted by us and should be so considered. Goods once sold and billed are not to be returned except by *special arrangement with us.* We are not responsible for promises, guarantee of sales, etc., given by the travelling agents of manufacturers, and would caution our customers, when ordering through us not to be induced to buy under such promises, unless the terms have our approval.

The following articles cannot be sent by mail: "Poisons, explosives, or inflammable articles; live or dead animals, or any article which might injure other mail matter or the post-office employees." Liquids, etc., may be mailed in packages having the approval of the postmaster-general. When special packages are required we will charge same at cost price.

We are not responsible for any articles sent by mail.

We request our customers, when sending us cash by mail, to have such letters registered. It is always safer to remit cash by money-order or by express, when small amounts are due.

POISONS AND THEIR ANTIDOTES.

In case of poisoning by Arsenic, Donovan's Solution, Fowler's Solution, Paris Green, "Rough on Rats," give tablespoonful of powdered mustard in warm water; after vomiting, give sweet oil or flaxseed tea.

For Prussic Acid, CyanidePotassium, Chloroform, Chloral Hydrate, give very dilute solution of ammonia internally, pour cold water over head and face. Use artificial respiration.

For Corrosvie Sublimate, Bed-Bug Poison, give milk, or white of eggs, or flour mixed with water, immediately.

For Phosphorus, "Parson's Vermin Exterminator," give three-grain doses of sulphate copper in water every five or ten minutes until vomiting ensues; then give milk of magnesia or sweet oil.

For Opium, Morphine, Laudanum, "McMunn's Elixir," give emetic of mustard or sulphate zinc immediately. Keep the person in constant motion.

For Atropine, Tinct. Belladonna, Tinct. Aconite, Tinct. Digitalis, Tinct. Nux Vomica, Strychnine, Tinct. Veratrum Viride, give emetic immediately; follow with brandy or whiskey and Comp. Solution Iodine.

For Tartar Emetic, give warm water to promote vomiting; follow with infusion of oak bark.

ACTS AND RESOLVES.

[Chap. 209.]

AN ACT REGULATING THE SALE AND PURCHASE OF POISONS IN MASSACHUSETTS.

Be it enacted, etc., as follows:

Sect. 1. Section six of chapter two hundred and eight of the Public Statutes is hereby amended so as to read as follows: *Section* 6. Whoever sells arsenic (arsenious acid), atropia or any of its salts, chloral hydrate, chloroform, cotton root and its fluid extract, corrosive sublimate, cyanide of potassium, Donovan's solution, ergot and its fluid extract, Fowler's solution, laudanum, McMunn's Elixir, morphia or any of its salts, oil of pennyroyal, oil of savin, oil of tansy, opium, Paris green, Parson's Vermin Exterminator, phosphorus, prussic acid, Rough on Rats, strychnia or any of its salts, tartar emetic, tincture of aconite, tincture of belladonna, tincture of digitalis, tincture of nux vomica, tincture of veratrum viride, without the written prescription of a physician, shall keep a record of such sale, the name and amount of the article sold, and the name and residence of the person or persons to whom it was delivered, which record shall be made before the article is delivered, and shall at all times be open to inspection by the officers of the district police and by the police authorities and officers of cities and towns. Whoever neglects to keep or refuses to show to said officers such record shall be punished by fine not exceeding fifty dollars. Whoever sells any of the poisonous articles named in this section, without the written prescription of a physician, shall affix to the bottle, box or wrapper containing the article sold a label of red paper upon which shall

be printed in large black letters the word "Poison," and also the word, "Antidote," and the name and place of business of the vendor. The name of an antidote, if there be any, for the poison sold shall also be upon the label. Every neglect to affix such label to such poisonous articles before the delivery thereof to the purchaser shall be punished by fine not exceeding fifty dollars. Whoever purchases poisons as aforesaid and gives a false or fictitious name to the vendor shall be punished by fine not exceeding fifty dollars; *provided*, that nothing in this act shall be construed to apply to wholesale dealers and to manufacturing chemists in their sales to the retail trade.

SECT. 2. Chapter thirty-eight of the acts of the year eighteen hundred and eighty-seven, entitled "An Act Regulating the Sale and Purchase of Poisons," is hereby repealed.

SECT. 3. This act shall take effect upon its passage. [*Approved April* 10, 1888.]

We offer books for the registration of sales of poisons.

The BEST is the CHEAPEST in the end, and is certainly true with regard to

SODA-WATER APPARATUS.

For elegance of design, convenience, cleanliness, and durability, we cannot be surpassed.

Do not place your orders or make any change in your Soda-water Apparatus until you have seen what we have to offer, both new and second-hand.
We will make you a liberal allowance for your old apparatus as part payment in exchange.
Easy payments.

We would call particular attention to our Sliding Cans, which effect a saving of 25 per cent in ice, and yet permits the drawing of the very coldest soda-water.

☞ *We have for some years been engaged in perfecting this department, until we now believe it to be particularly adapted to the wants of the drug trade, and unsurpassed in extent and variety by any similar establishment in this market. Our European connections, now of many years' duration, enable us to compete successfully with any house in this country; while our arrangements with the largest distilleries are such that we can offer alcohol, cologne, and French spirits, New England rum, and Bourbon and rye whiskeys, either in bond or duty paid, at the lowest market quotations.*

We cordially invite the patronage of the trade, and in whatever quantities goods in this department may be ordered, our friends have the assurance that they will be of the finest quality obtainable, and invoiced at the lowest possible price. Samples and quotations cheerfully furnished. Trial orders solicited.

Gross lots at 10% discount.

We should be glad at any time to submit to you a sample of

"BEEF, IRON, AND WINE,"

which we can offer in bulk at a very low figure. Our preparation has been much improved since we first introduced it, and we are ready to guarantee it equal, at least, to any make on the market. As we are large importers of wines, we are able to secure a good selection, and the wine used in our "Beef, Iron, and Wine" is one of the best flavored wines we keep. You may find it economical to handle this instead of your own make. You should look into the matter, get our figures and samples, and see what we can do. We will bottle it for you, with YOUR label, at $4.50 per dozen full pints, if you order twelve dozen at a time, or we will sell you in bulk in quantity as desired. We respectfully solicit your orders.

Yours very truly,

WEEKS & POTTER.

GLASS LABELS FOR SHOP FURNITURE BOTTLES.

The labels are painted with Block letters unless otherwise specified. Roman letters extra prices. Any styles not enumerated, can be furnished to order on receipt of pattern or sample. Special styles special prices. Please order by numbers to prevent mistakes.

When labels only are wanted, send circumference of bottles measured at point where labels are to be attached. When labels are wanted to match those already on hand, it is important that we should be advised of the fact, and a sample label sent with order.

DIRECTIONS FOR ATTACHING GLASS LABELS TO BOTTLES, JARS, ETC.

CEMENT. — To one part of best yellow wax add three of rosin; melt together in an open pan or kettle, with a gentle heat, to the consistency of syrup.

DIRECTIONS. — Place the bottle on a table in a nearly horizontal position; the glass must be perfectly free from moisture. Pour the cement on the hollow side of the label with a spoon; then apply the label to the bottle with a *gentle* pressure. While the cement is soft form a groove in it by running the point of a knife around the label. This will save labor in chipping it off. It will harden in about ten minutes, when, with a putty knife, such as glaziers use, remove the surplus. Clean bottle and label with a little kerosene oil; wipe off with a damp towel.

FANCY GOODS, TOILET ARTICLES,

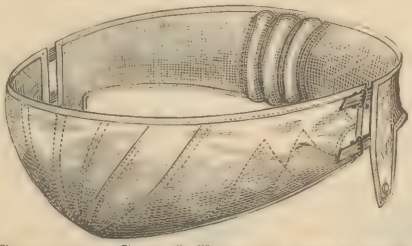

AND

GENERAL SUNDRIES.

☞ *We desire to call special attention to our stock in this department, which embraces the choicest novelties in Brushes, Combs, Perfumery, Fancy and Toilet Articles to be found in our foreign and domestic markets. All the old staples in Toilet Goods, and those rarely called for, constantly in stock. As far as it relates to the wants of Druggists, this department will be found more extensive and complete than that of any other house in New England, not excepting houses that make a specialty of Fancy Goods. Those who desire a large and varied assortment of the best selections are cordially invited to examine our stock.*

Those about opening new stores, or refitting, are respectfully requested to examine our stock.

SPONGES.

Our Stock in this department is, in its extent and variety, unsurpassed by any house in this market. We carry a full line of fine Turkey Cups, Toilet, Bathing, and all the varieties of Sponges used in surgery and shoe-dressing. We are the largest importers of Rock Island Florida Sheeps' Wool, and make a specialty of packing them in small bales, for the convenience of the Drug Trade. Long experience in this department of our business convinces us that an examination of the goods in the original bales and cases is more satisfactory to the buyer than to purchase from travellers by sample pieces of sponge. We cordially invite our patrons to inspect our stock before purchasing elsewhere.
